could be better	Votes
	2
Last time we were better prepared with wifi details pasted, announcing coffee tea info and restroom info. This time we missed all of them	2
The ambiance of the 5th floor could be better.	2
	1
Availability of core team members during and after the sessions was not that great this time.	1

puzzles / questions	Votes
Did we announce the session too early, as a result see lots of drops ?	2
The content were more generic didnt go into code and design. Having decided tech event should we be concentrating more indepth topics in future	0
There were too many sessions. Probably should we think about having one or two sessions in the near future	0

action items	Votes
Registration to be done outside the room - Person who takes resp of arrangement of next session	3
Figure how we can reduce registrations/number of times an attendee enters details. Maybe collect additional details together in survey link	3

1. Create SOP/checklist for before, during and after event. 2. Have a mail with directions for participants and share the link - Arvind	2
Create a mobile app to collect the participant feedback and have chat conversation related to topics/questions..etc. ---> sai / muthu	1
Have two slots of talk and third slot for just collaboration	0
Have conversation with security team for parking related hassles --> Arvind	0
Have conversation with attendees before starting of session . --> all core members	0
Find some videos that can be used pre-session and create a CT mini video --> kishore	0
publicity on TV and emails - Muthu	0
