

Pros and Cons of Technology Use (7/21/20)

Workshop brainstorming

Pros	Votes
Kate- loss of personal connection	1
Walt - Variety of educational techniques, methods and information is available. Increased speed in completing tasks	1
Kate- easy access to everything	1
allows for easier/greater access to real-world information/applications - Kasey	1
exposure to all things	0
Cos	
Kate H- new ways to collaborate even at a distance	0
Carl	0
the remote option still allows for (some) learning while keeping people safer	
Christina - Can make teaching easier if properly trained	0
Dave - creates jobs everywhere	0
Phyllis quick and easy access to communicate with loved ones from afar with a text, email, FaceTime, etc.	0

Cons	Votes
connection to all things	1
Cos	
Phyllis Staring at a screen for too long increases headaches/migraines, damages eyesight, and interferes with our ability to fall asleep at night. Young children aren't as aware of this as adults but it still affects them!	1
Dave - loss of focus. very distracting with students	1
Walt - No standard format. Access to software/apps. Knowledge in how to use the technology (Training needed).	1
Christina - Stressful, can take away from the actual learning trying to take place	0

Carl Overstimulation can create behavioral/emotional challenges. Corporate interest impacts what you see.	0
information overwhelm can occur/exposure to bad or false information - Kasey	0
Sherry - stressful, increased anxiety, insomnia	0
Kate H- removal from the physicality...creativity is often a physical process for me	0
