

OpenMRS Analytics Engine

OpenMRS Analytics Engine Retrospective

What went well	Votes
collaboration and teamwork	3
Showing product demos	2
Using standups to unblock people and clarify next technical steps	2
Leadership and vision from Allan & Bashir	2
We got un-stuck (moved ahead instead of continuing to debate schemas)	2
Internal communication	0

What can be improved	Votes
Share near term tasks & milestones that the squad is focused (as a team) on reaching	3
Providing a hands-on demo of latest progress for orgs/implementations/funders to touch & feel and get excited	2
Clearly summarizing what the technical progress means for implementers	1
Sharing notes taking :)	1
readme file and getting started	1
Clear & achievable targets by quarter in 2021 that squad feels confident can be reached or exceeded.	0
Reporting to TAC	0

Action Items	Votes
indicator generation	2
Make (beta? alpha?) available somewhere for Implementers to use/try it out	2
test server where anyone can test out the pipeline (a Jupiter notebook and openmrs instance)	1
