

OpenMRS Analytics Engine

retro

Keep Doing	Votes
Keep clean segregation between data ingestion and data warehousing/analytics tooling.	1
Collaboration	0
Stand ups	0

Start Doing	Votes
providing examples of indicator generation	1
Clear summary of what we're working on and what we're trying to release/output in the next 1-2 quarters - on the Product Dashboard	1

Stop Doing	Votes
Spending time discussing work that is not relevant to achieving analytics engine milestones	2
Technical discussion during Thursday call – spend more time on outputs and outcomes	0

Less of	Votes
----------------	--------------

More of	Votes
Demo-ing actual work done on Squad calls (rather than just verbal updates) - it's great to see what people are actually working on	1
Ensuring organizations contributing to analytics engine squad are getting what they need from our work.	0
Allan singing	0

Action Items	Votes
Implementers to showcase how the pipeline will/is improving care and research	0
