

# Income Worksheet

## Eligibility Resource #4

What is working?	Votes
Helpful when families have various sources of income. Like how there's multiple columns.	8
Breaks it down better for staff monitoring.	1
Works great for students and TANF recipients	0
Helpful that instructions are there and detailed	0
it's fillable ! YAY :)	0

What is not working?	Votes
Some have not used it. It can be confusing.	4
A little too concrete. No room for more.	3

If I could change 1-2 things?	Votes
Maybe adding an option for weekly. Add procedure to use the back of the page.	8
Maybe make it landscape to allow for more columns when there are multiple sources or for subtotals	2
Add the 12 month verification chart to the back so we don't have to look up 2 forms.	1
Does not flow to add everything together, maybe subtotal by month too so can check by source and month to verify income	0
Maybe add something here for when using current months income - another column, another row???	0
Consider combining or condensing forms because school districts only give so much money for printing. Or print them out for us at ESD.	0
Space on "source" line to add parent name	0
Add clarification in the ELPM on how tips can be calculated as income if 12 month income is not included. Tips vary by month	0

Other?	Votes
Please put the path to where it is on the ELPM so we can find it easier.	1
Please don't change it. its working !	0

Can we add a column or some how indicate where tips would come into play	0
Please explain more in debt what qualifies an over income family. Not much information available	0
