

Family Connections Packet

ERSEA Committee

What do you like?	Votes
Goals needs & interest is a nice way to identify family needs and resources shared	1
Good conversation starter	0
Enjoy the family commitment piece , makes clear expectations for both roles	0
Like the questions Nice place to ask more personal questions, based around the child and family interests	0
I like the "Things to Consider " question to use a guide if they feel comfortable sharing. Possibly add use additional open ended questions.	0
That we get the information at enrollment, to give resources right away as needed	0
Space on the paper to write notes about the conversations	0
Form helps 'break the ice' in conversations with parents and school staff	0
like the difference in interest and needs	0
Our Agreements- the reminder about being mandated reporters	0

What would you like to see changed?	Votes
Why is Safe arrival and departure agreement part of this packet? The packet is a "connections" packet but this form is a technical form.	5
Additional question for "Things to Consider" - What does your family value/What are your family's values?	1
Don't like the Our Agreements page, seems too much like a contract	1
too many places for the parents to sign, it is a packet - one signature should be sufficient	1
More space in between questions to write notes	0
The " circle" doesn't leave any space to write answers	0
Add first aid / cpr back in	0
What is the purpose or use of page 3?	0
Maybe add disaster planning back in as well - maybe under other as well	0

Page 1 - can you add space between the questions for those that like the filled in the blank opportunity.	0
Page 4, Move paragraphs to the top of the top of the page then initial below	0
Bold the paragraph regarding the need to FS to have legal documents on file n the "Safe Arrival /Departure" form	0
More clarity regarding the PIR asterisks	0
Introduce Safe Arrival at the beginning, but maybe have initials/signatures later on a different form so parents are reminded	0
how have you been preparing your child for school is a redundant question- the teachers do a whole form on this	0
Parents may not know that the " Goals, Needs and Interest " is used to help with resources and wonder why these questions are being asked.	0
Section 6 Change wording from asset building to financial coaching/counseling	0
Goals, Interest and Needs form needs a line to add the date of service and/or follow up	0
Digital copy of Goals, needs and interest. Easy access for reference	0
Page numbers are not always correct.	0

Other Comments...	Votes
Some families don't know what resources are available to them - maybe reframe the question on page 1 to ask if what they're familiar with	1
Sometimes parents don't have the answers right away - Give them the option to go over the question again at another time	1
Can families decline anything on "Our Agreements"? Similar to declining early learning health services on emergency consent form	1
Goals/needs forms procedure clarity please.	1
Miss the house	0
Keep trying to do the old way verses with this form - don't feel like we are getting as much information without going back to old form	0
Feel like a lot of it is double information from others in the packet	0
1st page question: What makes your family strong? ~ can you add the intent to this question? The way it is worded can throw people off.	0

Could create a lot of missed areas for newer family support who have not seen the older form and know more of the questions to ask	0
We notice that we each have differing personal preferences with each form. Some of us like a linear and clear form while others like a more abstract form.	0
tends to get lost in the shuffle with all the other enrollment paperwork, parents don't always remember it or what they have asked for	0
More parent language regarding child school readiness . Add developmental concerns section 3 under well being	0
Resource Guide for FSS provided by ESD. Same resources shared program wide	0
a lot of repetition through out the forms	0
Have brochures ready for Peer Programs when completing this form	0
Language barrier can be a challenge	0
