

Content-Pedagogy-Classroom Management

What reforms would you like to see in each of these areas?

Content	Votes
Kimberly- Yep. Choice over learning process, content and assessment type.	3
Steph - More room for student choice and creativity	2
Molly-Student choice!	2
Joanna- Student choice and Real-world situations that matter to students	1
Liz - the concept of "canon"	1
Jenny: More cross curricular and connected	1
Jen - Cross curricular, focus on super standards (what really needs to be taught) and tie in to real life problems/situations	1
Walt- what matters most and choice	0
Susan - I would try to really hone in on what matters.	0
Focusing on fewer math skills more in depth-Jenny M	0

Pedagogy	Votes
Jenny H - Make sure to include choice, focus more on a flipped model to help target students that need more support	4
Susan - I'd like to be able to use more strategies that challenge students at the evaluate and create levels of Bloom's.	2
Joanna- offer student choice and critical thinking opportunities.	1
Molly-add more metacognition opportunities. to guide next steps in the learning process & invite students into that.	1
Joanne: Really explore the ways to include critical thinking and choice into opportunities	1
Steph-Provide more advanced work options that students will actually engage with and benefit from if they are finishing early	0

Classroom Management	Votes
Jen - to stop focusing on if the task is done and more on has the concept been learned. Students can pick how they show understanding	3
Susan - I want to be certain that I build in opportunities for students to have time for social interaction every day.	2

Steph-Find more intriguing options for social interaction. Often my HS students won't want any of the ones I give, so I don't push.	2
Jenny H -How my students share their thinking and learning with me and others. (Choice!)	1
Molly- use as many discussion strategies as possible to get them interacting with each other	1
