

ASQ Innovation TC 2021

Innovation Progress

Keep Doing	Votes
Creating space for collaboration	1
Start using the word "Yes, AND" instead of BUT when listening to others' ideas; makes it easier to collaborate & move fwd	1
Ensure everyone in the company has the same vision	0

Start Doing	Votes
Implement the innovation process and start collaboration	0
Acceptance of changes	0
Team up on Innovation	0
Recognizing role of the worker who may be at a lower level of education. Innovation can come from any source.	0

Stop Doing	Votes
Stop using the word BUT as that becomes a barrier to any new ideas: ...Love this!	2
Working in silos, stop individual efforts that end on unsuccessful results	1
Living in business unit silos	0
focusing on the 'Shiny bright objects' 'flavors of the month' Rather get to the underlying issues - often they are the same	0

Less of	Votes
Relying on past performance	1
Virtual meetings with cameras off. It is already a hindrance to collaboration to have to meet virtually.	0
Stop bringing negatives from past	0

More of	Votes
Collaboration	0
Acceptance of other ideas especially when current strategies aren't working	0
Teamwork	0

Authentic Leadership	0
Bring the customer into our idea-generation meetings... at least for a little while	0

One Take Away So Far	Votes
We aren't going in right path to success	0
Old tools like the Affinity Diagram can be used to help connect/find similarities across industries	0
The Art of Possibilities	0
Quality Professionals already Skilled to Work Toward Innovation	0
