Possibilities and Concerns for AI's Role in Education

Brainstorming activity

Possibilities	Votes
Team 1: Opprtunity for additional student courses (CTE). Preparing students for the job market	52
Team 2- could it be used to help with master schedule development/staffing needs	1
Team 3: streamline building systems (heating/cooling, power) to minimize costs	1
Teach students critical thinking skills when reviewing text generated by AI (Team 3)	0
To add a comment under possibilities, click the green circle with the white plus and start typing. Click outside the sticky note to post.	0
Team #2- to use as a data point to analyze formative assessments and identify and help plan for next steps with assessment incorrect answers	0
Team 1: Students able to use in order to access learning that they otherwise would not be able to. Such as: assistive writing technology	0
Team 3: Starting young: responsible use	0
Team 1: Education for students on how to use appropriately	0
Team 3: Identify problems within our schools or spaces (like bathrooms) and use AI to solve those problems.	0
Team 1: How can staff use to leverage enhanced lesson planning	0
Team 1: How can we use to enhance professional development?	0
Team 2- help staff with lesson design of UDL	0
Improve student safety (Team 3)	0

Concerns	Votes
Team 1 : Community communication and conversation. How do we speak with community about CKSD moving forward responsibly with AI.	16
team 1: Loss of the trades	7
Team 1: Copyright infringement	6
Team 3: HIB/Online - is it real or not?	1
Team #2- time it will take to teach the staff to use it well to address concerns and embrace the possibilities	1

Team 1: Loss of face to face communication	1
Team #2- relying on it too much, too often! Balancing the intent behind using it, needing to develop critical thinking skills, verses using it to be able to get to the next step.	1
To add a comment under concerns, click the green circle with the white plus and start typing. Click outside the sticky note to post.	0
Team 3: cheating	0
Ability to bring staff along in the use of AI (Team 3). Building staff confidence understanding and using AI.	0
Team 3: loss of "old fashioned" disciplines (writing with paper/pencil). How AI will change investigations	0
Team 3 : Community acceptance	0
Team 3 : Staffs concern/attitude that AI will replace them	0
Team 1: Loss of student to teacher or student to student engagment	0
